Re: Fuel Farm Underground Pipe Relocation
Southwest Florida International Airport
Ft. Meyers, FL

Dear Mike,

I wanted to take a minute to commend you for a job well done on the Pipe Replacement Project down in Fort Myers.

We recently performed a one year warranty walk through with Dan and the rest of the Swissport team, and the system looks great and is performing well. Swissport seems to be very satisfied with the work, and made a point of mentioning Dan Welty and his team for their professionalism, cooperation and performance on this project.

I really appreciate the team we've developed with POND and KEAR and look forward to our continued relationship on existing projects as well as future opportunities down the road.

Sincerest Regards,

POND CONSTRUCTORS, INC.
Tim Crosby, Director
